Dear Primary 6 Families,

Welcome to a new school year! I'm so excited to be teaching your children in Primary 6 this year. The class has had an amazing start to the year—full of enthusiasm, curiosity, and positive energy. It's already shaping up to be a wonderful journey of learning and growth. I'm looking forward to getting to know everyone and working closely with you throughout the year. Thank you for your continued support—I can't wait to see all that we'll accomplish together! Miss Cox

Classroom Highlights

Learning Adventures:

I am really looking forward to our STEM learning this term! Our current focus is on physical and chemical changes—The class asked to learn about chemical reactions and that is what we plan to do! Through hands-on experiments and investigations we will explore how different materials change and why. It will hopefully be a fun (and sometimes messy!) way to learn about science in action. Be sure to ask your child what they've discovered each week.

Literacy

We will be continuing to build on our reading strategies in class, helping students to understand texts more deeply and read with confidence. Alongside this, we're also working on writing using descriptive language to make our writing more engaging and writing information reports—learning how to organise facts clearly.

Numeracy

This term we will be learning to read, write, order and sequence 6 digit numbers & decimal fractions with up to at least 2 decimal places and continuing to practise using all four operations (addition, subtraction, multiplication, and division).

To link in with our Enterprise topic, we'll also be exploring money—looking at budgeting, calculating costs, and handling change. It's a great way to apply our number skills to real-life situations! Looking forward to seeing all the brilliant thinking and problem-solving ahead!

Homework

- Primary 6 Homework will start from week beginning 15.9.25.
- All homework will be posted on Google classroom on a Tuesday, you will then have the week to complete the tasks as it fits around the needs of your family.
- Each child will receive a homework jotter, they can use this to complete tasks if needed, Google docs can also be used if this is possible.
- I will attach any log ins needed into homework jotters to easily allow you to log in at home when required.
- It would also be really helpful if you could please indicate if you need a paper copy of the homework tasks by replying to the post on Parents Portal.

Reminder

- PE days are a Monday and Friday.
- Please label all items of clothing and footwear that can be removed, (if lost it will make its way back to you if it's named)
- Well done to everyone having indoor shoes already!
- Please know that I am always available to answer any questions you may have and to help support your child throughout the year. If you need to get in touch with me, please don't hesitate to contact the school office, and I'll get back to you as soon as I can. Working together makes a big difference, and I truly value your partnership.
